**What does Socrates ask Euthyphro to define in Plato's Apology?** Socrates asks Euthyphro to offer him a definition of piety or holiness.

**What is the Euthyphro in Plato's five dialogues?** The Euthyphro takes its name from Socrates' interlocutor, Euthyphro, whose character offers to help Socrates by teaching him about piety. Euthyphro claims to have knowledge of piety, and his knowledge has driven him to prosecute his father for killing a slave.

**Did Aristophanes like Socrates?** While Xenophon and Plato were friends and admirers of Socrates, Aristophanes was not; he seems to present Socrates as a sophist in the Socratic sense of the term.

**Who wrote Euthyphro Apology and Republic?** Traditionally ascribed to Plato are thirty-five dialogues developing Socrates' dialectic method and composed with great stylistic virtuosity, together with the Apology and thirteen letters. The four works in this volume recount the circumstances of Socrates' trial and execution in 399 BC.

**What are the four arguments in Euthyphro?**

**What are Socrates' main points in apology?** In the Apology, Socrates makes his famous claim: "the unexamined life is not worth living." Socrates' interpretation of the Oracles' announcement and his subsequent activity also plays rather nicely in his defense against the charge of atheism/not believing in the gods of the state.

**What are the four texts on Socrates Plato's Euthyphro?** Widely adopted for classroom use, this book offers translations of four major works of ancient Greek literature which treat the life and thought of Socrates, focusing particularly on his trial and defense (three dialogues by Plato: Euthyphro, Apology of Socrates, and Crito) and on the charges against Socrates ( ...

**What is Euthyphro 4th definition of piety?** Definition 4: Piety is the part of justice concerned with care of the gods.

**What was the main point of Plato's Euthyphro?** Euthyphro effectively claims that acts are pious because the gods love them but that the gods love them because they are pious—which amounts to saying that acts are pious because they are pious, and that is no explanation at all.

**What is the main idea of the clouds by Aristophanes?** In his play The Clouds, Aristophanes revisits an old theme; the old or traditional versus the new or innovative. The conservative anti-war author wrote against a changing Athens and chose the philosopher Socrates as a symbol of this change. To him, Socrates represented all that he disliked about a new Athens.

**What is Aristophanes critique of Socrates in clouds?** In The Clouds, Aristophanes criticizes Socrates and education by satirizing Socrates. He does this by making Socrates seem ridiculous, full of himself, and unable to provide proper education to Strepsiades and Pheidippides.

**What did Socrates say before dying?** [117a] for I think I should gain nothing by taking the poison a little later. I should only make myself ridiculous in my own eyes if I clung to life and spared it, when there is no more profit in it. Come," he said, "do as I ask and do not refuse."

**Why is it called Plato's Apology?** Apologia means defense in Greek. The Apology is Plato's presentation of the Defense of Socrates in which Plato puts Athens on trial for Socrates's execution.

**What did Plato say about Socrates?** Socrates, as both Plato and Xenophon confirm, is a man who loves to argue: in that respect he is like a Sophist. And his conception of piety, as revealed by his devotion to the Delphic oracle, is highly

unorthodox: in that respect he is like those who deny the existence of the gods.

**Who accused Socrates in Plato's Apology?** Introduction. The Apology of Socrates begins with Socrates addressing the jury of perhaps 500 Athenian men to ask if they have been persuaded by the Orators Lycon, Anytus, and Meletus, who have accused Socrates of corrupting the young people of the city and impiety against the pantheon of Athens.

**How did Euthyphro attempt to define piety and impiety to Socrates?** Likewise, Socrates is interested in what piety is--i.e., what it is "composed" of, what things are essential to it and make it different from, say, justice or love. Euthyphro then defines piety and impiety as follows: "what is dear to the gods is pious, what is not is impious." (7a).

**What are the two options that Socrates suggests to Euthyphro?**

**What is piety according to Euthyphro?** 2nd Definition: Piety is what is loved by the gods ("dear to the gods" in some translations); impiety is what is hated by the gods. Socrates' Objection: According to Euthyphro, the gods sometimes disagree among themselves about questions of justice. So some things are loved by some gods and hated by others.

**What request does Socrates make at the end of the apology?** After Socrates's brief and rather flippant request for the death penalty to be commuted, the jury votes to put Socrates to death.

## **The Boy Next Door: A Q&A with Meg Cabot**

### **1. What was the inspiration behind writing "The Boy Next Door"?**

Meg Cabot: The idea came to me when I was watching a TV show about a young woman who moves into a new apartment and meets the boy next door. I thought it would be fun to write a book about a similar situation, but with a twist. In my book, the boy next door is a vampire.

### **2. What are the main themes of the book?**

MC: The book explores themes of love, friendship, and identity. It also deals with the challenges of growing up and becoming an adult.

### **3. How did you create the character of Janet S. Tate?**

MC: Janet is a strong and independent young woman who is trying to find her place in the world. I wanted to create a character that readers could relate to and root for.

### **4. What kind of research did you do for the book?**

MC: I did a lot of research on vampires, both in fiction and in real life. I also read up on the history of New York City, where the book is set.

### **5. What advice would you give to aspiring young writers?**

MC: Don't be afraid to write what you're passionate about. And don't give up on your dreams, even when things get tough.

**How do you cite Creswell research design 3rd edition?** Citation. Creswell, J. W. (2009). Research design: Qualitative, quantitative, and mixed methods approaches (3rd ed.).

**What is the quantitative methodology of Creswell?** Creswell (1994) defined a quantitative research as "an inquiry into a social or human problem, based on testing a theory composed of variables, measured with numbers, and analyzed with statistical procedures, in order to determine whether the predictive generalizations of the theory hold true" and a qualitative ...

**What are the Creswell paradigms?** The four are postpositivism, constructivism, advocacy/participatory, and pragmatism (Creswell, 2003). It is helpful to see the major elements of each paradigm, and how they inform the practice of research differently.

**What is research creswell?** Another definition of research is given by John W. Creswell, who states that "research is a process of steps used to collect and analyze information to increase our understanding of a topic or issue".

**How do you cite a third edition in APA?** (Year). Title of book: Subtitle. Title of book (3rd ed.)

**How do you reference Creswell 2014?**

**What are the four types of research design?** There are four main types of Quantitative research: Descriptive, Correlational, Causal-Comparative/Quasi-Experimental, and Experimental Research. attempts to establish cause- effect relationships among the variables. These types of design are very similar to true experiments, but with some key differences.

**What are the data collection methods according to Creswell?** As John W. Creswell (2009) acknowledges, data collection requires observations, interviews, and documentation. The researcher did the method of data collection in this manner.

**What are the characteristics of qualitative research by Creswell?** According to Creswell [9] "A qualitative study is defined as an inquiry process of understanding a social or human problem, based on building a complex, holistic picture, formed with words, reporting detailed views of informants and conducted in a natural setting.

**What are the three steps of research that Creswell identifies?** Answer & Explanation. Creswell (2018) explains three research approaches: qualitative, quantitative, and mixed methods. Each approach is associated with different worldviews and methods of data collection and analysis.

**What are the four worldviews of Creswell?** Creswell and Creswell (2018) identify four worldviews that can help ground your research approach: Postpositivism, Constructivism, Transformative, and Pragmatism. Further discussion of these interpretive lenses in the world of research and how they apply to inquiry are below.

**What is the most common research paradigm?** Most research paradigms are based on one of two model types: positivism or interpretivism. These guide the theories and methodologies used in the research project. In general, positivist research paradigms lead to quantitative studies and interpretivist research paradigms lead to qualitative studies.

**What are the five methods in qualitative inquiry according to John Creswell?** In this chapter, we begin our detailed exploration of narrative research, phenomenology, grounded theory, ethnography, and case studies.

**What is a problem in research Creswell?** “A problem might be defined as the issue that exists in the literature, theory, or practice that leads to a need for the study” (Creswell, 1994, p. 50).

**What is thematic analysis by Creswell?** According to Creswell (2009), there are six steps in thematic analysis. Those steps were such as compiling and preparing data, reading the data as a whole, analyzing in detail with the coding process, making a data description, explaining the information that has been analyzed, and interpreting the data.
