

# Aurelia gerard de nerval

## Download Complete File

**Which French writer took his lobster for walks?** The poet Gérard de Nerval had a penchant for lobsters, or at least for one lobster. Nerval was seen one day taking his pet lobster for a walk in the gardens of the Palais-Royal in Paris.

**Who was the artist who had a pet lobster?** Here Gustave Doré reinvents the notion of the apotheosis as Death elevates the rather eccentric poet Gérard de Nerval into the spirit world. Even among his bohemian friends, De Nerval's attachment to his pet lobster was considered unusual.

**Who took a lobster for a walk?** Gérard de Nerval – the man who walked lobsters.

**Who is the famous writer from France?** Undeniably, Victor Hugo is among the most famous French authors ever. Over a span of over six decades, he wrote extensive works, encompassing critical essays, historical sagas, satirical pieces, and poetry. Victor Hugo's famous works include Les Misérables and The Hunchback of Notre Dame.

**Who was the French short story writer?** The greatest French storywriter, by far, is Guy de Maupassant, a master of the objective short story. Basically, Maupassant's stories are anecdotes that capture a revealing moment in the lives of middle class citizens.

**What is the famous painting about lobsters?** The Lobster is a famous oil painting, originally by Scottish artist Samuel John Peploe in 1903, with the style of post-impressionism. The painting now is collected by private as collection. This kind of still life oil paintings is very common in visual art.

**Who said you're my lobster?**

**What did lobster mean to Dali?** Lobsters and telephones had strong sexual connotations for Dali who drew a close analogy between food and sex throughout his work. In Lobster Telephone, he placed the crustacean's tail, where its sexual parts are located, directly over the mouthpiece.

**What pet did Gérard de Nerval have?** Nerval had a pet lobster named Thibault, which he walked at the end of a blue silk ribbon in the Palais-Royal in Paris.

**Why do lobsters walk?** As they head for deeper water, walking in line reduces drag and keeps them on course. Guided by the Earth's magnetic field, they can march like this for days. Already, they are vanishing into the deep, leaving Spy Lobster far behind.

**Who eats lobsters?** In general, a variety of bottom-dwelling species feed on lobster, including fish, sharks, rays, skates, octopuses, and crabs. Young lobsters are especially vulnerable to predators. Large, hard-shelled lobsters may be immune to predators (except humans).
