We have been able to optimize the PPD concentration levels in hair dye products in order to always ensure they are well below the authorized level which is 2%.

**Do I need MSDS sheets for paint?** The Material Safety Data Sheets (MSDS)/Safety Data Sheets (SDS) are used to ensure that all the hazardous ingredients contained within the paint product, as supplied by Duracoat Products Inc., are communicated to the customer so they may take appropriate safety precautions in the handling and use of the product.

**Are MSDS sheets free?** SDS Manager offers a free online service available to everyone, where you can find and download Safety Data Sheets for your business.

**What is an MSDS where can you get it?** The MSDS is a sheet that contains information compiled by manufacturers about their products' safety and usage. You can find this on the manufacturer's or distributor's website.

**Who furnishes MSDS sheets?** Safety Data Sheets must be available to personnel at all times while they are in the workplace. Chemical manufacturers and distributors are required by law to furnish a SDS for product purchases. ### **What is a Stonewall Attack?**
