**What level is a demigod in D&D?** It says that demigods are divine beings, with all the standard powers of such (pp5-11) but they function at a minimum of 15th level, as opposed to 20th for gods, or 25th for greater gods. They can only grant spells of up to 5th level (out of 7) to their priests.

**Are demigods weaker than gods?** A demigod or demi-god is a mortal or immortal who is the offspring of a god and a human, or a figure who has attained some form of divine status. Considered to be the weakest form of deities, demigods are still an extremely powerful race.

**Can demigods become full gods?** They are mortal, however, they possess superhuman abilities and the fighting prowess of a god thanks to their divine blood.

They are most noted for their supernatural strength and resilience in combat as well as their superior fighting skills. Demigods can become gods themselves if they are deemed worthy enough.

**Who is the most powerful god in D&D?** If knowledge is power, then Oghma would be the most powerful god in the Dungeons & Dragons pantheon.
