Taal is Zeg Maar Echt Mijn Ding: An Interview with Paulien Cornelisse

Paulien Cornelisse is a Dutch author and journalist who is known for her sharp wit and her passion for language. In her latest book, "Taal is Zeg Maar Echt Mijn Ding," she explores the beauty and complexity of the Dutch language.

In an interview with Taalblad, Cornelisse talked about her love of language and her desire to write about it.

"Language is so fascinating," she said. "It's the way we communicate with each other, and it can be so expressive. I love playing with words and finding new ways to say things."

Cornelisse's book is full of examples of the richness and diversity of the Dutch language. She writes about the different ways that people speak in different parts of the country, and she explores the origins of some of the most

common words and phrases.

"I wanted to show people how much fun language can be," she said. "I hope that my book will inspire people to learn more about their own language and to appreciate its beauty."

Here are some of the questions that Cornelisse answered in her interview with Taalblad:

- **What is your favorite thing about the Dutch language?**

"I love the way that Dutch can be so expressive. There are so many different ways to say things, and I love finding new and creative ways to use language."

- **What is the most challenging thing about writing about language?**

"The most challenging thing is trying to capture the beauty and complexity of language in words. It's a bit like trying to describe a sunset. You can use all the right words, but it's still not quite the same as seeing it for yourself."

- **What do you hope people will take away from your book?**

"I hope that people will come away from my book with a greater appreciation for the Dutch language. I hope that they will see it as a beautiful and complex tool that can be used to express a wide range of emotions and ideas."
