Touching the Void: An Interview with Joe Simpson

"Touching the Void" is the harrowing true story of mountaineer Joe Simpson's survival after a near-fatal accident on the Siula Grande in the Peruvian Andes. The book, which was made into an acclaimed film in 2003, has become a classic of mountaineering literature.

Q: What happened during your climb on Siula Grande?

A: In 1985, Simpson and his climbing partner, Simon Yates, were attempting to make the first ascent of the west face of Siula Grande. During their descent, Simpson fell and broke his leg. Yates, who was below him, was unable to help Simpson and had to make the difficult decision to leave him behind.

Q: How did you survive after Yates left you?

A: Simpson spent the next three days alone on the mountain, with no food or water. He crawled down the glacier, rappelling down ice cliffs and enduring excruciating pain. He was finally rescued by a Peruvian shepherd who found him and carried him to safety.

Q: What was it like to be left behind by your climbing partner?

A: Simpson has said that being left behind was one of the hardest experiences of his life. He felt betrayed and abandoned, but he also understood that Yates had no choice. "I wasn't angry with him," Simpson said. "I knew he had to do what he could to save himself."

Q: What lessons did you learn from your experience?

A: Simpson's accident taught him the importance of perseverance, determination, and the limits of human endurance. He also learned the importance of being prepared for the unexpected and the value of friendship and teamwork.

Q: What advice would you give to other climbers?

A: Simpson advises climbers to be well-prepared for the risks of mountaineering and to never give up hope. He says, "If you find yourself in a difficult situation, remember that the human spirit is capable of amazing things."
