2351811380 ffr10: Your Questions Answered

What is 2351811380 ffr10?

2351811380 ffr10 is an identification number used by utility companies to track and manage their electrical assets. It is typically affixed to transformers, poles, and other electrical equipment.

What does 2351811380 ffr10 mean?

The first seven digits of the number, 2351811, are the utility company's unique identifier. The eighth digit, 3, is the district or region where the asset is located. The ninth digit, 8, is the type of asset (e.g., transformer, pole). The tenth digit, 0, is the specific asset number. The final three digits, ffr, are a checksum used to verify the accuracy of the number.

How can I find the location of an asset with the number 2351811380 ffr10?

The utility company that owns the asset will have a database that maps identification numbers to physical locations. You can typically contact the company's customer service department to obtain this information.

What if the asset with the number 2351811380 ffr10 is damaged or needs repair?

If you notice a damaged or malfunctioning electrical asset, it is important to report it to the utility company as soon as possible. You can do this by calling the company's emergency hotline or by contacting their customer service department.

What are the safety precautions to consider when reporting a damaged electrical asset?

Never approach a damaged electrical asset directly. Always keep a safe distance and call the utility company to report the problem. Do not attempt to repair the asset yourself, as this could be dangerous.
