Can a 13 year old read Artemis Fowl? Great for confident readers! I remember reading Artemis Fowl when I was about eight and couldn't put it down! It is without a doubt the most intriguing book I've ever read. It's like a roller coaster ride, where you're on the edge of your seat! I think the appropriate age for this novel is 12+.

What does Artemis want from the old fairy in Vietnam? In Artemis Fowl, the first book in the series, he kidnaps Captain Holly Short, a member of the reconnaissance unit of the fairy police force, the Lower Elements Police (LEP), LEPrecon. His objective is to obtain the gold which the fairy government has set aside to ransom captured officers.

What is the theme of the Artemis Fowl? Artemis Fowl has a number of underlying themes, but the most essential of these are greed and the conflict between good and evil. Greed is the first main theme that is introduced into the book, and specifically the desire to obtain gold.

How old is the Artemis Fowl? Twelve-year-old criminal mastermind Artemis Fowl has discovered a world below ground of armed and dangerous—and extremely high-tech—fairies. He kidnaps one of them, Holly Short, and holds her for ransom in an effort to restore his family's fortune.

Who is Artemis Fowl girlfriend? Artemis may have a possible romantic relationship with Holly Short. Though they start out as fierce enemies, they gradually learn to respect each other, and then to like each other.

Is Artemis Fowl a good guy? Type of Villain Artemis Fowl II is the titular main protagonist of the Artemis Fowl series. He starts out as a villain and serves as the villain protagonist of the first book. He is redeemed throughout the series.

Who does Artemis have a crush on? Who did Artemis love? Artemis never married. In fact, she asked her father to let her remain a virgin. Some myths explain that she fell in love with the hunter Orion, but other myths explain that she killed him when he attempted to rape her.

Why can't Artemis fall in love? The goddess never fell in love again because she didn't want to feel the pain of loss. Artemis was one of the deities who could not be affected by Aphrodite's powers. The goddess could not make the hunting goddess to fall in love with her or anyone.

Who is the bad fairy in Artemis Fowl? Opal Koboi Opal is featured in several of the Artemis Fowl books as the main antagonist. She detests Foaly, as he won a science competition in college over her, and she believes the judges chose Foaly instead just because he was male.

Who does Artemis Fowl fall in love with? Dean Ryan Martin Artemis Fowl is secretly in love with Holly from the start.

What is the secret message in Artemis Fowl? The coded message along the bottom of the US version of Artemis Fowl: The Opal Deception reads: A recruitment letter from the centaur Foaly, technical consultant to the Lower Elements Police. Trusted ally, if you have decoded this Gnommish message, then you are a deputy officer in the Lower Elements Police.

Who is the baddie in Artemis Fowl? Opal Koboi is a narcissistic pixie genius and the primary antagonist of the series. Using her unparalleled intelligence, she engages in criminal activities, as seen in Artemis Fowl: The Opal Deception.

What is Artemis Fowl's IQ? What powers does Artemis Fowl have? None. Just an impressive and whopping IQ of over 200 and a nearly superhuman bodyguard.

Does Artemis Fowl marry Minerva? Fowl Twins At some point Minerva and Artemis dated, but they broke up, because Artemis was more in love with himself.

She later fell in love with and married a fairy. Together they had a daughter named Numi.

Is Artemis Fowl kid friendly? I'd definitely recommend it. The only reason I wouldn't say it's for 7 and under is because the plot is a little complicated and there is a bit of violence. Oh and there are a few curses. Plot: Artemis Fowl tries to steal gold from the fairy people, but then they stop playing by the rules.

Is Artemis Married? Answer and Explanation: In Greek mythology, Artemis is the virgin goddess, so named because she has never had carnal relations with anyone and has never had a husband. When Artemis was a child, she asked her father to grant her a few wishes. One of those wishes was that she would always be a virgin.

How does Artemis Fowl end? The final book in the series ends with Artemis and Holly Short (A captain of the LEPs and the first female police officer) finally vanquishing Opal Koboi, a fairy who doesn't want to follow the rules anymore. Afterwards, Artemis loses his memory and starts over.

What age should you read Artemis Fowl? If you/your children are over ten you/your children should definitely read this. The series becomes better and better by each book, and Artemis is definitely the best protagonist , I'm glad my cousin introduced me towards this book.

Why is Artemis Fowl rated 12? Artemis Fowl has some violence. For example: A troll attacks a wedding party. It smashes and destroys things, and grabs and throws people, including a young girl.

Is Artemis Fowl PG 13? Rated PG for fantasy action/peril and some rude humor.
