**What is the dark original story of Hansel and Gretel?** Hansel and Gretel's abandonment and battle with the witch was inspired by the Great Famine of the early 1300's when people were literally starving. Many of the elderly forewent food, choosing to starve to death to save the young people in their families and communities.

**What is the rhyme about Hansel and Gretel?**

**What is the original Hansel and Gretel story?** "Hansel and Gretel" is a fairy tale that was first recorded by the Brothers Grimm. Hansel and Gretel are siblings who must survive in the woods after being abandoned by their parents during a famine. Their situation becomes more dangerous when they encounter a witch living in a house of breads, cakes, and sugar.

**What is the oldest version of Hansel and Gretel?** Hansel and Gretel was included in the first volume of *Kinder-und Hausmärchen*, or *Grimms' Fairy Tales*, published in 1812, but the story originated in the Baltic region around 1315 CE. The Brothers Grimm likely heard it from Wilhelm's wife, Henriette Dorothea Wild.

**Why was Hansel and Gretel banned?** Jacob and Wilhelm Grimm The wine could be seen as condoning the use of alcohol. The wine was also the reason behind other challenges. Hansel and Gretel was challenged in CA in 1992 because it teaches children that it is acceptable to kill witches and paints witches as child-eating monsters.

**Is the witch in Hansel and Gretel evil?** Also known as the Gingerbread Hag in other versions, she is a mysterious old woman who is revealed to be the evil and cannibalistic witch who lives in the house made of sweets inside the middle of a forest in which she tries to lure the two main protagonists into her home and attempting to eat them.

**Why were Hansel and Gretel sad?** The two children had not been able to fall asleep because of their hunger, and they heard what the stepmother had said to the father. Gretel cried bitter tears and said to Hansel, "It is over with us!"

**What is the moral of Hansel and Gretel?** What is the moral of Hansel and Gretel? Children may learn numerous things from this tale. The most important thing to learn is to never trust strangers, even if they treat you well.

**Are Gretel and Hansel twins?** Hansel and Gretel are siblings who are abandoned in a forest and fall into the hands of a witch who lives in a bread, cake, and sugar house. The witch, who has cannibalistic intentions, intends to fatten Hansel before eventually eating him.

**What are Hansel and Gretel real names?** The boy's name was Hansel Leiderhosen, and his sister's name was Gretel Leiderhosen. Their father was the famous German woodcutter, Wheresmeine Leiderhosen.

**Is Hansel a German name?** Hansel is a masculine name of Scandinavian, German, and Hebrew origins, meaning "God is gracious." Known most famously for the fairytale Hansel and Gretel, Hansel has a youthful yet wise aura that will stand to baby as they grow.

**What is the witch's name in Hansel and Gretel?** The Witch is the main antagonist in the fairytale of Hansel & Gretel (though in some versions, she is known as the Gingerbread Hag and in Engelbert Humperdink's 1892 opera she is called Rosina Leckermaul, the German translation of the name being "Raisin Sweet-tooth").

**Who is the real villain in Hansel and Gretel?** The Witch is the main antagonist in the fairytale of Hansel & Gretel (though in some versions, she is known as the Gingerbread Hag and in Engelbert Humperdink's 1892 opera she is called Rosina Leckermaul, the German translation of the name being "Raisin Sweet-tooth").

**Why are original fairy tales so dark?** Why are original fairy tales so dark? Some say this is because a few of them are based on actual historical events. Today's versions have been made palatable by removing themes of torture, rape, cannibalism and the like.

**Why were Hansel and Gretel so scary?** They were actually very dark, violent allegories that scared children and adults alike. Take the cannibal witch from Hansel and Gretel. The trope of the evil old lady in a creepy hut in the woods lying in wait for victims is something we see often, even outside of the fairy tale genre.

**What is the poem Gretel in Darkness about?** “Gretel in Darkness” complicates life after the happily-ever-after ending of a fairy tale. The poem's speaker, Gretel (of the fairy tale “Hansel and Gretel”) is tormented by her memories of her ordeal in the witch's cottage, where she shoved the witch into a burning oven to save herself and Hansel from being devoured.

**Why did the witch eat children in Hansel and Gretel?** Besides highlighting the endangerment of children (as well as their own cleverness), the tales have in common a preoccupation with eating and with hurting children: The mother or stepmother wants to avoid hunger, and the witch lures children to eat her house of candy so that she can then eat them.

**Are Hansel and Gretel a couple?** Once upon a time, there were two children. The boy's name was Hansel Leiderhosen, and his sister's name was Gretel Leiderhosen. Their father was the famous German woodcutter, Wheresmeine Leiderhosen.

**What gender is Gretel?** The adaptation movie of Grimm Brothers' Hansel and Gretel (1812), Gretel & Hansel (2020), aimed to break the patriarchal ideologies in the source story focusing on the issue of the female main character, Gretel, being placed as the secondary gender compared to her male brother, Hansel.

**What's the scariest fairy tale?**

**Is Hansel and Gretel Based on a true story?** The true story of Hansel and Gretel goes back to a cohort of tales that originated in the Baltic regions during the Great Famine of 1314 to 1322. Volcanic activity in southeast Asia and New Zealand ushered in a period of prolonged climate change that led to crop failures and massive starvation across the globe.

**Tozer on Worship and Entertainment: Questions and Answers**

---

### **1. What is the primary purpose of worship according to A. W. Tozer?**

Tozer believed that the primary purpose of worship is to glorify God. Worship is not about our personal enjoyment or spiritual fulfillment, but rather about exalting the majesty and worth of the Creator.

### **2. How does entertainment differ from worship?**

According to Tozer, entertainment is focused on satisfying our own desires and providing temporary pleasure. Worship, on the other hand, directs our attention to God and seeks to please Him. Entertainment is often passive and self-centered, while worship is an active and God-centered experience.

### **3. Can worship and entertainment coexist?**

Tozer believed that it is possible for worship to be corrupted by entertainment. When worship becomes more about our own enjoyment than about honoring God, it ceases to be true worship. Entertainment can creep into worship through elements such as excessive theatrics, flashy music, or shallow messages.

### **4. How can we avoid entertainment in worship?**

Tozer urged Christians to focus on the essence of worship: adoration, thanksgiving, confession, and surrender. We should be wary of activities that distract us from these core elements. He also emphasized the importance of discernment and introspection in discerning genuine worship from mere entertainment.

### **5. What is the role of the Holy Spirit in true worship?**

Tozer believed that the Holy Spirit empowers us to truly worship God. The Spirit creates in us a longing for God, guides us in right worship, and fills us with joy and reverence in His presence. When we worship the Spirit's way, we experience a profound connection with God that transforms our lives.

**What are oils fats and waxes?** The Oils, fats and waxes are assembled from fatty acid chains combined with a 3-carbon glycerol molecule. Oils, fats and waxes are used in biological systems primarily for energy storage (fats, oils) or for protection (waxes). Fats and waxes are solid at room temperature while oils are liquid.\_\_\_\_\_

**What are edible fats and oils?** Edible fats are often made from a mixture of different fats, such as rapeseed oil, sunflower oil, palm oil and butter. Liquid margarines and reduced-fat spreads made from rapeseed oil contain healthy unsaturated fat, including omega-3 fat, which is good for the health. Olive oil also contains unsaturated fat.

**What are edible oil and fat products?** Edible oil and fat products Fats are used for baking pastries and cookies, while a combination of oil and fat is used for spreadable products, such as margarine, hazelnut- or chocolate spreads, as well as in many other products.

**Which class of biomolecules do fats, oils, and waxes belong to?** Lipids are a class of macromolecules that are nonpolar and hydrophobic in nature. Major types include fats and oils, waxes, phospholipids, and steroids.

**What are the four types of oil and fat?** Chemically, they can be divided into four main types – saturated, cis-monounsaturated, cis-polyunsaturated and trans fatty acids.

**What examples include oils waxes and butters?** Lipids include fats, oils, waxes, phospholipids, and steroids.

**What oils should you avoid if you have high cholesterol?** Avoid coconut oil, goose fat, lard, dripping and butter. Whichever cooking method you choose, use small amounts of oil as they are still high in calories. Repeat frying with a deep fat fryer can also lead to harmful substances and trans fats forming over time, so it's best to avoid deep frying.

**What are 10 examples of edible oil?**

**Which fat is bad for cholesterol?** Trans fats raise your bad (LDL) cholesterol levels and lower your good (HDL) cholesterol levels. These changes are associated with a higher risk of heart disease and stroke. Trans fats are found in many fried foods. Baked goods, such as pastries, pizza dough, pie crust, cookies and crackers also can contain trans fats.

**Which oil is not edible?** Non-edible oils are not suitable for human food because of the presence of some toxic components. Non edible oils are mainly wastage & By-Products of Edible/ Cooking oil & Refinery Industry and oils of some non edible species seeds. Major Non edible oil seeds are Mahua, karanja, Jatropha, Castor and Neem.

**What are 5 examples of fat and oil food?**

**Is palm oil bad for you?** Is Palm Oil Bad for You? Compared to other liquid oils, palm oil is relatively high in saturated fats. It's nearly 50% saturated fat, while olive oil is about 14%. Saturated fats are linked to high cholesterol and an increased risk of heart disease and other chronic health conditions.

**What are fats oils and waxes called?** Lipids are fatty, waxy, or oily compounds that are soluble in organic solvents and insoluble in polar solvents such as water. Lipids include: Fats and oils (triglycerides) Phospholipids. Waxes.

**What are the 4 main types of lipids?** Lipids can be classified into four main types, namely fatty acids, glycerolipids, phospholipids, and sphingolipids. Fatty acids are the simplest type of lipids. They consist of long chains of carbon atoms with hydrogen atoms attached to them. They are divided into two groups: saturated and unsaturated fatty acids.

**What are the 4 building blocks of life?** As indivisible units of life, the cells of all organisms consist of four fundamental macromolecular components: nucleic acids (including DNA and RNA), proteins, lipids and glycans.

**What type of compound is fats oils and waxes?** Lipids are fatty, waxy, or oily compounds that are soluble in organic solvents and insoluble in polar solvents such as water. Lipids include: Fats and oils (triglycerides) Phospholipids.

**What category do waxes and oils belong to?** Lipids. Fats, oils, and waxes are all examples of lipids. There are lots of lipids, but they all share the trait of being at least partially hydrophobic (meaning they won't mix with water).

**What are oils and fats called?** Fats and oils are called triglycerides (or triacylglycerols) because they are esters composed of three fatty acid units joined to

glycerol, a trihydroxy alcohol: If all three OH groups on the glycerol molecule are esterified with the same fatty acid, the resulting ester is called a simple triglyceride.

**What is an example of a fat or oil?** Oils are commonly obtained from oil producing plants like corn, peanuts, soya beans, vegetable seeds, olives, palm kernels, whilst fats are more commonly obtained from animal sources like milk (butter), beef (tallow), pork (lard), etc. Fats and oils can also be obtained from marine sources like fish.
