What caused the global crisis of the seventeenth century? Global Crisis: War, Climate Change and Catastrophe in the Seventeenth Century. Revolutions, droughts, famines, invasions, wars, regicides – the calamities of the mid-seventeenth century were not only unprecedented, they were agonisingly widespread.

What was the climate crisis in the 17th century? Global temperatures declined by just a few tenths of a degree Celsius—significantly less dramatic a change than our current warming trend. Nevertheless, regional effects were often severe, including catastrophic droughts, torrential rains, and entire years in which winter never fully gave way to spring and summer.

Why was the 17th century so bad? The main driver of this decline was the ungodly number of wars that took place in the 1600s: the English Civil War, the Fronde civil wars in France, the Eighty Years' War, the Franco-Spanish War, the First Anglo-Dutch War, the Mughal-Maratha Wars in India, and the collapse of the Ming dynasty in China to name just a ...
