**Is ISO 17025 same as ISO 9001?** The main difference between ISO 9001 and ISO 17025 is their focus and application. ISO 9001 is a generic quality management system standard that can be applied to any organization, while ISO 17025 is a specific standard that applies to testing and calibration laboratories.

**What is the difference between ISO 13485 and ISO 17025?** ISO 13485 certification, as well as ISO 9000 registration, ensures compliance to a specific quality system, typically for a manufacturing process.
