Is Paolo Sorrentino an orphan? Early life. Sorrentino was born in the Arenella district of Naples in 1970, and was orphaned at age 16 after losing both of his parents.

How did Sorrentino lose his parents? He has spoken before about the trauma — both his parents died of carbon monoxide poisoning at the family's ski house when Sorrentino was 16.

How old is the Orphan pretending to be? Now, however, Natalia's claims about her age have been proven. According to People, a DNA blood test, the results of which were revealed in the first episode of the series earlier this week, found that Natalia is approximately 22 years old — suggesting that she was 9 when she was adopted by the Barnetts.
