Section 23(2) Note Taking Guide: MRSGBIended Weebly

Question 1: What is Section 23(2)?

Answer: Section 23(2) of the Canadian Charter of Rights and Freedoms protects individuals from unreasonable search and seizure. It requires that searches and seizures be authorized by a warrant, except in certain limited circumstances.

Question 2: When is a warrant not required?

Answer: A warrant is not required in the following circumstances:

- **M:** Search incident to lawful arrest
- **R:** Reasonable and probable grounds
- **S:** Safety of persons
- **G:** Gathering of evidence
- **B:** Border searches

Question 3: What is the "M" exemption?

Answer: The "M" exemption allows police to search a person and any place within their immediate control when they are lawfully arrested. This is to prevent the destruction or concealment of evidence.

Question 4: What is the "R" exemption?

Answer: The "R" exemption allows police to search without a warrant if they have reasonable and probable grounds to believe that a crime has been or is about to be committed. This exemption is often used in emergency situations.

Question 5: What are the limits of the "R" exemption?

Answer: The "R" exemption only applies if the search is authorized by a police officer with reasonable and probable grounds. Searches based on mere suspicion or hunch are not permitted. Additionally, the search must be proportionate to the urgency of the situation.

La Tecnica della Sconfitta: 40 Giorni di Errori che Precedettero l'Entrata dell'Italia in Guerra

Nell'ambito della Seconda Guerra Mondiale, il conflitto italiano rappresenta una pagina buia segnata da una serie di errori strategici e tattici. La "tecnica della sconfitta" è un'espressione usata per descrivere i 40 giorni cruciali che precedettero e seguirono l'entrata dell'Italia in guerra il 10 giugno 1940.

Cosa accadde in quei 40 giorni?

Durante quei giorni, si verificò una catena di decisioni sbagliate e valutazioni errate che portarono l'Italia ad affrontare una guerra non preparata e con scarse possibilità di vittoria. Il regime fascista, guidato da Benito Mussolini, sottostimò la forza degli Alleati e sovrastimò quella dell'Asse. Ignorando i segnali di pericolo, l'Italia procedette con l'invasione della Francia, convinta di una rapida e facile vittoria.

Quali furono gli errori principali?

Tra gli errori principali commessi dall'Italia durante quei 40 giorni ci furono:

- **Sottostima del nemico:** L'Italia sottostimò la potenza militare e la determinazione degli Alleati.
- **Sovrastima delle proprie forze:** L'Italia sopravvalutò le proprie capacità militari e la preparazione dell'esercito.
- **Mancanza di preparazione logistica:** L'Italia non si preparò adeguatamente a sostenere una guerra prolungata, con carenze di equipaggiamento, rifornimenti e trasporti.
- **Decisioni avventate:** Mussolini prese decisioni impulsive senza consultare il suo stato maggiore.

Quali furono le conseguenze?

Le conseguenze di questi errori furono devastanti. L'Italia fu sconfitta pesantemente nella Battaglia delle Alpi Occidentali, perdendo migliaia di soldati. L'invasione dell'Egitto fallì miseramente. L'entrata in guerra dell'Italia indebolì l'Asse e prolungò la guerra nel Mediterraneo.

Cosa si può imparare da questa vicenda?

La "tecnica della sconfitta" è un ammonimento sui pericoli della sottovalutazione del nemico, della sovrastima di se stessi, della mancanza di preparazione e della presa di decisioni avventate. Imparare dagli errori del passato è essenziale per evitare di ripeterli in futuro.
