How do I know what model Johnson outboard I have? "Standing in back of the engine There should be a plate on the port transom bracket (bracket that attaches engine to the boat) that has the model and serial number imprinted. You may also find a small quarter sized core plug (looks like a small freeze out plug) on the powerhead that has those same numbers.

What was the last year they made Johnson outboards? It has been owned since 2001 by the Canadian firm Bombardier Recreational Products. Bombardier stopped selling outboards under the Johnson brand after 2007, and moved all sales entirely to Evinrude Outboard Motors until they were discontinued in June 2020.

Can you still get Johnson outboard parts? Outboard Parts Inventory MarineEngine.com keeps thousands of Johnson Evinrude parts in stock. We offer current Johnson Evinrude OEM parts, the largest selection of old stock OEM parts and quality discount aftermarket parts by Sierra Marine, Mallory Marine, CDI Electronics and more.

How to tell what year an Evinrude outboard is? Not sure about the year of your outboard motor? The serial number can help you determine the year of your engine. Your serial number or model number can be found on the engine's mid-section. Often this plate is also marked with the engine's year too.

How do I know what model outboard I have? The outboard plate displays the model code, shaft length, serial number and older models also a quick reference letter that reflects 'production year' reference. Modern outboards do not show the quick reference letter.

How can I tell what year my engine is by the serial number? The date code for the engine is built into the serial number after the first two numbers. As an example, a 2013 engine would read something like this, 1013426. The "13" designates it as a 2013 engine.

Are old outboards worth anything? Outboard motors, similar to wooden boats, are valued by the simple laws of supply and demand. Yet, some fairly common models like Mercury kg-7 “Super 10” and Johnson 5 hp green TD models are fairly pricey in restored condition. Some rare, often low horse power, brands like Flambeau or Elgin are easy to bargain for.

Which outboards last the longest? Outboards from big brands (Yamaha, Mercury, Honda, ePropulsion, etc) tend to have longer boat motor hours life.

Did Johnson ever make a 4 stroke outboard? 2002 Johnson 4-Stroke Series J10R4SN Outboard motors, Prices & Specs - J.D. Power.

How good is a Johnson outboard motor? They are very reliable engines, I have owned 4 boats all powered by Johnson outboards and have had zero issues with them. I would say they are just as reliable as the Yamahas. However, IMO the Yamahas of the same vintage are smoother, and more efficient than the Johnsons. They are very good engines.

Are Evinrude and Johnson outboards the same? In 1936 the Evinrude company merged with the Johnson Motor Company to form the Outboard Marine Corporation.

What should I replace on an old outboard motor? Old or worn-out fuel pump diaphragms and check valves can contribute to difficulty starting an outboard motor. Fortunately, replacing the fuel lines and rebuilding the fuel pump and carburetors with modern, ethanol-resistant components is a straightforward solution.

How to identify Johnson outboard year? The actual year is found in the model number, not the serial number. For example, 150TXL78 is a 150hp engine from 1978. 65ESLR72 would be from 1972. For engines prior to 1969 refer to the Johnson 1960-1979 serial number year chart located [here](#).

Do they still make Johnson outboard motors? Johnson outboards went out of business awhile ago. Would it be a bad idea to buy this boat because of the motor not having parts in stock to repair if anything goes wrong?

When was the last Evinrude made? In 2020, the Evinrude brand was discontinued after more than 110 years. “I put my whole life into it, so it's tough to see it gone,”

Ziehm said. Even so, the impact that Ole Evinrude had on the small engine business and outdoor recreation is immeasurable.

What does the number on the back of an outboard motor mean? Serial number is labelled. The model number is also important as it tell us details like the type, year and horsepower of the motor.

Can you tell a year by a serial number? For the serial number the typical format is to have the 4th, 5th, and 6th characters to reference when the product was built. The first character is the year date (Y) and the next two (WW), the week in that year it was made. Hope this helps you and answers your questions.

How do you tell if a boat motor is a 2 or 4 stroke? 4-stroke outboards have internal oil reservoirs and sumps which need regular oil level checks, filter replacements and oil changes at least annually. 2-stroke outboards generally have an external oil tank with the oil and fuel mixture injected into the cylinder.

How to check the manufacturing date of an engine? Most vehicles have a VIN, a unique identification code of 17 characters (numbers and letters). It contains information about the manufacturer and production date. Most often, the year of manufacture is in the 10th position of the VIN.

How to read Evinrude serial number? Your Evinrude outboard model number can usually be found on the nameplate located on the motor or the mounting bracket. The nameplate should contain a model number and a serial number. The model number will identify the year and certain details of that motor.

How do I find out what model my engine is? The 8th digit of your VIN will tell you more about your car's engine size and type. This is usually a letter. Once you have this letter, you can call your manufacturer and ask for more information about your engine type and size.

How do I find out what model my boat is? The type/model and year the boat was built can be found imprinted on the hull of the boat in the Hull Identification Number or HIN code.

Are Johnson and Evinrude motors the same? In 1936 the Evinrude company merged with the Johnson Motor Company to form the Outboard Marine Corporation.

How do I know what size outboard my boat is? The thumb rule is to have one horsepower for 25-40 pounds of weight. That means if your vessel weighs around 800 pounds, you need a minimum of 30 HP – 40 HP outboard strength. Depending on the exact use and weight, a 5,000-pound boat might need an outboard between 125 HP to 200 HP.

How do I identify my boat engine? To identify the engine type (model), open the engine hatch and look at the top of the engine. Then locate the badging found on the plenum. Please note that on GDI engines, removal of the plastic cowling may be required to identify the engine variant.
