**Does Sophie become a witch in Howl's Moving Castle?** The big reveal of the book, the narrative trick, is that Sophie is a witch herself.

**Does Sophie marry Howl?** A lovely, powerful witch with red-gold hair from Ingary, Sophie is able to talk magic into objects. She has a young son named Morgan and is married to the Wizard Howl.

**Do Sophie and Howl have a baby?** Morgan is the son of Howl Jenkins Pendragon and Sophie Hatter. He appears in Castle in the Air and House of Many Ways. Morgan is nearly two in House of Many Ways and at the end he is shoved into Howl's Castle as he cries for Twinkle's loss.

Why did Sophie like Howl? Howl, who the rest of the country perceives as a devious womanizer eating the hearts of young maidens, falls in love with Sophie's empathy and her kindness. On the other hand, Sophie sees Howl for who he really is: a man trying to do the right thing and avoid perpetuating the cycle of abuse.

Sophie uses her ability of bringing things to life to free Calcifer, thus breaking the contract between him and Howl.

How old are Howl and Sophie? Howl's actual age isn't mentioned, but when he accosts Sophie on May Day and tries to buy her a drink we're told she thought he must be 'well into his twenties'.. but then, he's a Wizard so he could easily have been older. So, let's say that she was 18 and he was perhaps 24 or 25.. that feels about right to me.

Why did Calcifer eat Sophie's hair? By consuming Sophie's hair, he is able to have enough power to move the castle across The Wastes to find Howl.

Why did Howl's hair turn black? Everyone has had a bad hair day. However, few people gave up on life over an easily fixable mistake. Thanks to Sophie's cleaning, Howl's potions got mixed around, leading his hair to change from blond to ginger. Howl accuses Sophie of ruining him and proceeds to throw a tantrum as his hair changes to black.

Why does Sophie's age change so much in Howl's Moving Castle? One theory is that the curse is heavily affected by Sophie's own confidence and emotions. In the beginning, she sounds like a 90-year-old grandmother as her mother put it and she acts as if she gave up on her own life. But as she finds some purpose cleaning the castle, she becomes slightly younger.

**Did Turnip Head love Sophie?** It is because of this missing prince the war begins in the land, so this reveal should be exciting; when the prince is found, the war ends. However, the curse that makes him a scarecrow is broken when Turnip Head receives a kiss from his true love... Sophie, who ends up with Howl. You see the problem here.

Is the Witch of the Waste Howl's ex? Howl spends his time wooing ladies until they fall in love with him after which he dumps them. His illicit activities spark rumors among the populous, many of which he spreads himself. Sometime before the book Howl courts the Witch of the Waste, but being the prick that he is, he dumps her after she falls for him.

Why did Sophie dump water on Calcifer? The fire demon Calcifer, Michael explains, only allows Howl to cook on him. Annoyed, Sophie wrenches the frying pan from Michael, puts bacon in it, and tells Calcifer to stop being silly—she'll pour water

on him if he doesn't bend down.

**Is Howl in Castle in the Air movie?** Sophie, Howl, Calcifer, and others reappear in Castle in the Air, though they are not main characters. It takes places four or five years after the events of Howl's Moving Castle, and it's kind of a fun peak at their lives after the events of the movie.
