What is the plot of Proof by David Auburn? Proof is the story of an enigmatic young woman, Catherine, her manipulative sister, their brilliant father, and an unexpected suitor. They are all pieces of the puzzle in the search for the truth behind a mysterious mathematical proof.

What is the main idea of the play proof? Proof depicts sexism in the field of mathematics, exploring its effects on two characters: the main character, Catherine; and the real-life mathematician Sophie Germain, an 18th century woman whose life story Catherine relates during the play.

What is the crisis in Proof by David Auburn? One of the major conflicts of the play is Catherine's inability to convince Hal and her sister that she actually invented the proof in her father's notebook. For a while, the audience ?is unsure as well. After all, Catherine's sanity is in question. Also, she has yet to graduate from college.

What is the significance of the title of the drama Proof by David Auburn? The drama's title is defined in the playbill's useful Glossary of Terms, and refers to both a mathematical proof and Catherine's problem of proving the authorship of a historically significant proof to her concerned sister, Claire, and her father's inquisitive PhD student Hal.

What is the climax of proof? The climax of the play happens when Claire and Hal realize that Catherine has written an extremely advanced math proof, proving her talents surpass Robert's ability and knowledge.

What is the ending of proof? "End of Proof": This formally states that you have finished the proof and that (hopefully) you have shown your statement to be true. To show the end of a proof you can do one of the following: o Write "End of proof"; o Write "QED".

What mental illness is in the play proof? Based on a stage play by David Auburn, Proof—which reunites actress Gwyneth Paltrow with director John Madden after the

Oscar winning triumph of Shakespeare in Love—deals with mental deterioration following schizophrenia.

What is the conflict in the play proof? Upon Robert's death, his ex-graduate student Hal discovers a brilliant proof about prime numbers that Catherine claims to have written. The play's conflict concerns whether Catherine can prove the proof's authorship.

Why did David Auburn write proof? Auburn says he wrote it as an attempt to merge his abiding interest in popular science and math into a modern-day romance and an exploration of how mental disease affects family dynamics.

Who is Robert in Proof? Robert, father of Catherine and Claire, is a retired professor of math at the University of Chicago. Robert left his position when mental illness overtook him (at one point, he believed aliens were communicating to him through the Dewy Decimal system).

How old is Catherine in the play Proof? Catherine – A young woman, 25 years old, who inherited much of her father's mathematical genius and, she fears, his "instability" as well; she gave up her life and schooling to take care of her father until his recent death.

Who is the antagonist in the play proof? Claire is the closest thing the play has to an antagonist, even though she is acting from a pure-hearted and well-intentioned place. She just wants to help her sister get better, even if her methods are aggressive and unwanted.

What is the symbolism in Proof by David Auburn? Auburn's Proof employs abstract symbolism, and in this symbolism, he highlights the idea of a shadow of a doubt, and no matter how provocative something may be, humans are resilient, with life moving no matter what the circumstances.

Why did the author choose the title Proof? David Auburn's Pulitzer Prize winning drama, "Proof," which premiered in 2000, and was later adapted into a film, is about a mystery but without a murder victim. The title is a play on words: in mathematics, a proof is a statement that shows how a problem has been solved.

Did Catherine write the Proof? In the middle of the row, Hal appears clutching a notebook, barely containing his excitement. He tells Claire that Catherine is in possession of one of Robert's notebooks which holds a very important proof. Claire asks Catherine where she found it and Catherine tells them she didn't find it--she wrote it.
