What is a statement of purpose (SOP)?

An SOP is a personal essay required for graduate school and scholarship applications. It defines your academic and career goals, explains your motivation for pursuing a degree in petroleum engineering, and outlines your research interests or professional ambitions.

What are the key elements of an effective SOP?

- **Introduction:** Grab the reader's attention with a compelling hook, stating your purpose for writing.
- **Academic background:** Highlight your academic achievements, research experience, and relevant coursework.

- **Research interests:** If applying for a research-oriented program, discuss your research interests and how they align with the program's objectives.
- **Conclusion:** Summarize your qualifications and goals, reiterating your enthusiasm for the program and expressing your confidence in its ability to help you achieve your aspirations.

How long should an SOP be?

Typically, SOPs are between 500-1000 words in length. It's important to be concise while providing all necessary information.

What are common mistakes to avoid?
