The Lords of Strategy: GBV

Question 1: What is GBV?

Question 2: Why is GBV considered a "silent pandemic"?

Answer: Despite its widespread prevalence, GBV is often hidden due to shame, stigma, and fear of retaliation. - **Empowering women and girls:** Promoting their education, economic empowerment, and decision-making power.
- **Transforming social norms:** Challenging harmful gender stereotypes and promoting respectful relationships.
- **Strengthening legal and institutional frameworks:** Enacting and enforcing laws against GBV, establishing specialized support services, and training law enforcement and judicial officials.
- **Engaging men and boys:** Involving them in efforts to prevent and respond to GBV, promoting healthy masculinity, and challenging violence against women.

Question 4: Who are the "Lords of Strategy"?

Answer: The "Lords of Strategy" are a group of prominent figures in the fight against GBV, including politicians, activists, academics, and policymakers. They advocate for effective strategies, raise awareness, and hold governments and institutions

accountable for preventing and responding to GBV.

Question 5: What is the impact of GBV on society?

Answer: GBV has devastating consequences for individuals, families, and communities. It can lead to physical injuries, mental health problems, economic instability, and social isolation. It also undermines progress towards gender equality and human development, perpetuating poverty and inequality. Addressing GBV is crucial for creating a just and equitable society for all.
