Triumph continued to produce the up-spec Triumph Daytona 675R model until the 2018 model year.

Do they still make Triumph Daytona 675? Not only that, but it's gone from having a hand in a few supersport race teams to being the engine supplier for the entire Moto2 grid. We thought we had lost the Daytona for good in 2016, when production of the 675 ended, but under consumer pressure Triumph launched the Daytona Moto2 765 Limited Edition in 2020.

Is Daytona 675 a good bike? Value vs rivals For the amount of performance you get, the Daytona 675R is excellent value for money and the cheaper, standard version even better. It's easier to ride fast than a litre bike and better spec'd than a Suzuki GSX-R750 and Ducati 848, so it's arguably one of the quickest A to B motorcycles you can buy.

Why was Daytona discontinued? Most likely due to a lack of demand and a slight increase in the number of listings, prices fell to $220,000 by mid-September. As the year progressed and more and more sellers began listing Daytona Le Mans examples, prices continued to fluctuate.

Is the Daytona 675 a superbike? Though Triumph couldn't stick to its mouth-watering pricing, which it had released two years ago still the Daytona 675R has all the performance and looks to be a big hit among the faired superbike aficionados in the country.

Is Triumph Daytona coming back? Triumph Daytona 660 is expected to launch in India in August 2024 in the expected price range of ? 11,00,000 to ? 12,00,000. Currently available bikes which are similar to Daytona 660 are Kawasaki Ninja 650, Kawasaki Z650 & Ducati Hypermotard 698 Mono.

Will Triumph Daytona come back? This asset is not currently visible to end users as its embargo time is in the future. According to documents released by the National Highway Traffic Safety Administration, the regulator rectifier on the affected Triumph units may overheat, damaging its internal components.

Is the Triumph Daytona 765 discontinued? Well, put simply the Daytona is no more. Yes, the storied sportsbike was given a proper send off recently by marrying it to the 765 triple-cylinder engine that powers the entire Moto2 World Championship grid, but its limited numbers ensured it sold out long before we'd even tipped into 2020.
