Guida alla comprensione degli accordi sul pianoforte

Che cos'è un accordo?

Un accordo è una combinazione di tre o più note suonate contemporaneamente. Le note sono scelte in base a un modello specifico e creano un suono armonioso.

Quanti accordi ci sono sul pianoforte?

Ci sono innumerevoli accordi possibili sul pianoforte, ma i più comuni sono gli accordi a tre note, noti come triadi.

Come si forma un accordo

Per formare un accordo, seleziona una nota di base, nota fondamentale o tonica. Quindi, aggiungi le altre due note seguendo un intervallo specifico:

- **Terza:** Una nota che si trova tre semitoni sopra o sotto la nota di base
- **Quinta:** Una nota che si trova cinque semitoni sopra o sotto la nota di base

Accordi comuni e le loro note

Do maggiore (C): Do, Mi, Sol **Fa maggiore (F):** Fa, La, Do **Sol maggiore (G):** Sol, Si, Re **Re minore (Dm):** Re, Fa, La **Mi minore (Em):** Mi, Sol, Si **Do minore (Cm):** Do, Mib, Sol

Come suonare gli accordi sulla tastiera

Accordo di Do maggiore (C)

1. Localizza la nota Do sul tasto bianco più a sinistra.
2. Suona contemporaneamente le note Mi (tasto nero alla sinistra di Do) e Sol (tasto bianco alla destra di Do).

Altri accordi

Accordo di Do mi la (Cmaj7): Do, Mi, Sol, La **Accordo di Fa Do sol (Faug):** Fa, Do, Sol# **Accordo di Re fa la (Dm7):** Re, Fa, La, Do

Accordatura della tastiera

La maggior parte delle tastiere è accordata secondo lo standard di accordatura a temperamento equabile, in cui ogni 12 semitoni hanno un'altezza uniforme. Per accordare la tastiera manualmente, è necessario utilizzare un accordatore elettronico o consultare un accordatore professionista.

Impostazioni dei simboli della tastiera

Le impostazioni dei simboli della tastiera variano a seconda del tipo di tastiera. In genere, i tasti bianchi rappresentano le note naturali e i tasti neri rappresentano i diesis e i bemolli. Tuttavia, alcune tastiere potrebbero utilizzare colori o altri simboli per rappresentare le note.

Inserimento dei tasti sulla tastiera

I tasti della tastiera possono essere inseriti tramite i tasti fisici sulla tastiera stessa o tramite un programma software sulla tastiera virtuale.
