Scalextric: Questions and Answers

What is Scalextric?

Scalextric is a brand of electric slot car racing sets, manufactured by Hornby Hobbies. The cars are powered by electricity and run on a track consisting of metal rails and plastic sections. The track features a variety of curves, straights, and obstacles, allowing for realistic racing experiences.

How does Scalextric work?

Scalextric cars are fitted with a small electric motor and a metal pick-up shoe that makes contact with the metal rails on the track. The cars are powered by a DC power pack, which supplies electricity through the rails. The power pack also controls the speed and direction of the cars.

What are the different types of Scalextric sets?

There are many different types of Scalextric sets available, ranging from basic beginner sets to advanced professional-grade models. Some sets include pre-made layouts, while others allow for custom track configurations. Scalextric also offers a wide variety of cars, including licensed vehicles from popular racing series and classic models.

How do you race Scalextric cars?

To race Scalextric cars, simply plug the cars into the track and start racing. The cars can be controlled by a hand-held controller, which allows you to adjust the speed and direction of your car. You can race against other people or compete against the

clock.

Where can I buy Scalextric sets and cars?

Scalextric sets and cars are available at hobby shops, toy stores, and online retailers. You can also purchase Scalextric accessories, such as additional track pieces, controllers, and cars.
